

This industrial strength rinsing compound has been developed specifically to cut through the dulling, white chalky residue left by ice melting chemicals. Salt residue is chemically dissolved without harming sensitive painted or finished surfaces.

DIRECTIONS

For daily damp mopping use 1 to 3 ounces per gallon of rinse water. Apply liberally to floor with a mop, allowing the solution to act for several minutes. Rinse immediately with clean water, wringing out mop frequently.

To remove heavy film from equipment: Dilute 6 ounces per gallon of rinse water. Spray liberally over the equipment surfaces and allow to act for several minutes. Rinse with clean water.

SALT RINSE

ICE MELT RINSE AID
NEUTRALIZES CORROSIVE FILM
LEFT BY ICE MELT CHEMICALS

CAUTION

May irritate eyes and skin.
See side panel for further cautions
and first aid instructions.

KEEP OUT OF REACH OF CHILDREN

Sold By:

To eliminate carpet stains left by ice melting residue, use 1 to 3 ounces per gallon of water in carpet extraction equipment. Do not use a hot solution and do not mix this product with any other chemical.

CAUTION

May irritate eyes and skin. May be harmful if swallowed. In case of eye or skin contact, flush with plenty of cool water for at least 15 minutes. If the irritation persists, obtain medical attention. If swallowed, do NOT induce vomiting. Give person several glasses of water and call a physician.
